Why tolerate outdated solutions?

Our New Generation 4G LTE CAT M1 and NB-IOT units are state-of-the-art, super-smart and allow for monitoring and control for many years.

A combination of GPS and Wi-Fi can track assets both outside and inside buildings. 4G/IRIDIUM gives you 100% coverage in remote areas.

Battery Meters provide peace of mind

www.gofinder.net

Why pay for coverage you don't need?

We have National, State, Regional, Local, Security and Indoor Plans that can keep your costs at a minimum. No longer pay to track assets that are out of commission.

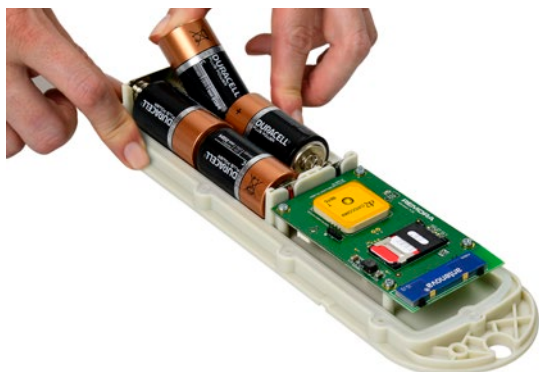

With no sacrifice of rich features such as:

- Scheduled Maintenance
- Driver Behaviour
- FBT Reporting
- Vehicle Tracking
- Alarm Monitoring

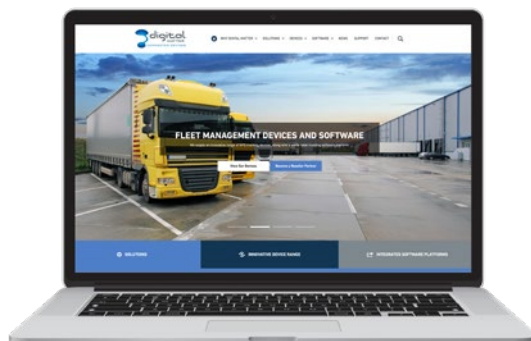

...all on the best software platform!

The more units you have, the more you'll save

SAVE BY
PARTNERING WITH
AUSTRALIA'S MOST INNOVATIVE
TECHNOLOGY COMPANY

Why pay for unnecessary installation?

Our high capacity batteries can last for 10 YEARS on once-hourly locations*.

Simply Place and Trace - no wiring means TOTAL FLEXIBILITY between assets, with the peace-of-mind that battery meters provide.

Warranty exchange is a breeze!

Why rely on a lesser, unproven company?

GOFINDER has been established 14 years and is a leading channel partner of DIGITAL MATTER, headquartered in Perth.

World leaders in battery powered devices and the Internet of Things, DIGITAL MATTER devices operate in 100+ countries, with a tracking platform hosted in Australia.

Devices are manufactured in South Africa with 55,000 produced in the last twelve months alone. All are comprehensively guaranteed.

All devices are security encrypted

Not sure what you need?

Give us a call to discuss the ideal solution for your fleet telematics

Why waste money?

Find out what you can save on your existing fleet tracking arrangements by opening a Gofinder Fleetcheque account.
